9876543210

Summary

Driven AI Engineer specializing in Machine Learning, automation, and system deployment, with a proven ability to develop and optimize data-driven solutions.

Skills

- Python
- Machine Learning
- Data Pipeline Automation
- LaTeX

Experience

- Developed and optimized Machine Learning models, enhancing predictive accuracy and system performance.
- Streamlined and automated data pipelines, significantly improving data processing efficiency and reliability.

Education

B.Tech in CSE, KL University (2026)
